SPORTSWEAR

ABOUT KALAS SPORTSWEAR

KALAS Sportswear является крупнейшим производителем и дистрибьютором велосипедной одежды не только в Чехии но в средней и северной Европе. Кроме велосипедной одежды изготавливаем также с индивидуальным дизайном на триатлон, ориентирование, легкая атлетика, хоккей, футбол и другие виды спорта.

Одевает тех наилучших

Джерси с логотипом KALAS одевают чемпионы мира и олимпийских игр, члены национальных команд, множество профессиональных команд и тысячи любителей велоспорта в более чем 20 странах мира. Производство велоформы на заказ пользуется все большей популярностью и самыми известными нашими клиентами являются Škoda Auto, ČEZ, Budějovický Budvar, Bosch, Hypoteční banka, ČSOB, Subaru ČR или Hewlett Packard.

Технология & ноу-хау

Мы единственные в Чехии, кто кроит материалы на специальном катре. Печать дизайна производится на плоттере японской фирмы Mimaki i с использованием итальянских красок на швейцарскую сублимационную бумагу. При переносе напечатанного дизайна с бумаги на материал используется сублимационные итальянские станки Monti Antonio. Но даже самая наилучшая технология не может сравниться с золотыми руками наших швей, которые шьют одежду KALAS на нашей фабрике в городе Табор.

Мы всем сердцем за велоспорт

Хотя на KALAS Sportswear сегодня работает более 200 человек, все равно мы считаемся семейной фирмой и за все отвечаем своим именем. Безкомпромиссно придерживаемся качества продукции, велоформу шьем в Чехии из функциональных материалов с Италии и Швейцарии с использованием современной технологии.

PRODUCTS

Cycling jersey PRO 70 | Razor | MEN

Code: N50076-MS70

PRICE (excl. VAT): €61.00

This jersey has been designed to meet the demands of professional teams and takes high performance cycle wear to a new level. The Razor jersey incorporates extremely lightweight and breathable fabrics and is constructed in an aerodynamic form fit to reduce air drag when in the tuck riding position. No-compromise, the ultimate racing jersey that focuses on one thing only, pure performance.

MATERIAL: Razor

- Lightweight and breathable Razor fabrics that has been developed for racing wear.
- Mesh side panels for maximum air flow.
- Active seems provide better elasticity and deliver perfect fit.
- Hidden semi-autolock zipper that facilities easy opening and closing with one hand.
- Longer sleeves with bonded edge hem to reduce drag.
- Silicone elastic waistband to prevent your top from riding up.
- Pyramid shape of the three-compartment pocket allows easy access.

Cycling jersey PRO 71 | Razor | MEN

Code: N50076-MS71

PRICE (excl. VAT): €65.00

Cycling jersey S/S PRO 75 | VeranoUltra | MEN

Code: N50074-MS75

PRICE (excl. VAT): €61.00

When the temperature rises above 25C it can feel unpleasant riding in a regular cycling jersey. Therefore, we have come up with an ultralight summer jersey, Verano Ultra, featuring panels made from a breathable material that will give you excellent moisture management for the heat of summer. An aerodynamic construction of the jersey ensures that you will not only stay cool but also fast.

MATERIAL: Verano Ultra

- Lightweight and highly breathable Verano Ultra fabric.
- Mesh inserts on the shoulders give maximum ventilation.
- Active seams provide better elasticity and deliver perfect fit.
- Hidden semi-autolock zipper that facilitates easy opening and closing with one hand.
- Longer sleeves with bonded edge hem to reduce drag.
- Silicone elastic waistband to prevent your top from riding up.
- Pyramid shape of the three-compartment pocket allows easy access.

Please note: It is advisable to use sun cream underneath.

Cycling jersey S/S PRO 76 | VeranoUltra | MEN

Code: N50074-MS76

PRICE (excl. VAT): €65.00

When the temperature rises above 25C it can feel unpleasant riding in a regular cycling jersey. - Hidden semi-autolock zipper that facilitates easy opening and closing with one hand.
- Longer sleeves with bonded edge hem to reduce drag.
- Silicone elastic waistband to prevent your top from riding up.
- Pyramid shape of the three-compartment pocket allows easy access.
- Inner removable water-resistant pouch for your valuables.

Please note: It is advisable to use sun cream underneath.

Cycling jersey S/S PRO 77 | W&W SHARK | MEN

Code: N51077-MS77

PRICE (excl. VAT): €149.00

For the really resilient cyclists who do not get discouraged by miserable weather or have to face up the rain during a race, we have designed a fully waterproof jersey – Shark. It is constructed in a streamlined race fit that will enhance the aerodynamics even in the rough weather conditions. With a high level of water resilience and excellent breathable characteristics you will get a superior garment that will keep you warm and dry on the rainy days.

MATERIAL: W&W Shark

- Waterproof and breathable Shark fabric with a brushed liner on the inside.
- Low tail to keep road spray at bay.
- Tall, close-fitting collar to protect your neck.
- Hidden semi-autolock zipper that facilitates easy opening with one hand.
- Silicone elastic waistband to prevent your top from riding up.
- Three back pockets with mesh drainage at the bottom.
- Reflective details to increase visibility.

Cycling jersey L/S PRO 79 | ELASTICO THERMO | MEN

Code: N50054-ML79

PRICE (excl. VAT): €65.00

This stylish aerodynamic long-sleeve jersey has been designed at the request of the professional teams. The jersey is made from the delicate and elastic material with brushed fibre on the reverse side. The great stretchiness and light weight provides maximum comfort while riding.

MATERIAL: Elastico Thermo

- Mixture of the most delicate fabrics.
- Inserts under the sleeves from the material with the carbon fibre.
- Silicone elastic waistband to prevent your top from riding up.
- Reflexive elements for increased safety.
- Long overlaid zipper provides continuity of your design.

Cycling gilet PRO 70 | W&W HEXAGON/net | MEN

Code: N50117-MN70

PRICE (excl. VAT): €45.00

The impressively light Hexagon vest offers a close fitting shape, and thanks to excellent packability it is an indispensable piece of kit when riding in changeable weather conditions. The front panel is made from wind and waterproof fabric to protect your core from light rain and road spray, while the back part features mesh panelling to improve breathability.

MATERIAL: W&W Hexagon

- Water-proof and highly breathable Hexagon membrane.
- Water column: >8 000 mm.
- Breathability: > 37 700 g/m/24h.
- Hidden semi-autolock zipper that facilitates easy opening and closing with one hand.
- Inside collar made from mesh material to ensure better moisture management.
- Silicone elastic waistband to prevent your top from riding up.
- Low tail to keeping road spray at bay.
- Reflective details for higher visibility.

Cycling jacket PRO 71 | W&W HEXAGON | MEN

Code: N50218-ML71

PRICE (excl. VAT): €69.00

The Hexagon jacket has been designed specifically for those days in the saddle when you have to face up to wet and windy conditions. The Hexagon jacket is constructed using the latest materials in wind and water proof technology. Thanks to those important features such as fully tape-sealed seams, elongated tail and zip-underflap you are sure to reach your destination warm and dry. The reflective elements make sure you stay visible no matter how dark it is outside.

MATERIAL: W&W Hexagon

- Water-proof and highly breathable Hexagon membrane.
- Water column: >8 000 mm.
- Breathability: > 37 700 g/m/24h.
- Hidden semi-autolock zipper that facilitates easy opening with one hand.
- Inside collar made from mesh material to ensure better moisture management.
- Silicone elastic waistband to prevent your top from riding up.
- Low tail to keeping road spray at bay.
- Reflective details to increase visibility.
- Fully tape-sealed seams for maximum waterproofness.

Cycling winter jacket PRO 78 | W&W Diamond | MEN

Code: N50072-ML78

PRICE (excl. VAT): €129.00

This winter cycling jacket reflects the latest trends in the performance cycle wear thanks to a unique dual construction with an insulated balaclava to keep your head warm. Technical advanced membrane provides not only a maximum protection against wind and water but also an excellent breathability that prevents overheating.

MATERIAL: W&W Diamond

- Innovative membrane water-proof fabric.
- Waterproof Rating >10 000 mm.
- Breathability > 11 000 g/m2/24hrs.
- Full length hidden zipper with a top overlap.
- Three compartment back pocket.
- Inner layer includes an insulated balaclava to protect your face.
- Reflective elements for increased visibility.

Bibshorts ARCO-PRO 29 | GOFFRATO | MEN

Code: N61065-MA29

PRICE (excl. VAT): €78.50

- New anatomical cut.
- Flat seams.
- Legs finished with elastic fabric for maximal comfort.
- Small pocket at the back.
- ENDURANCE Plus pad.

Skinsuit 3/4 ELITE-A 38| Lycra POWER | MEN

Code: N50538-MA38

PRICE (excl. VAT): €101.00

Modern skinsuit ELITE from high quality and compressive Lycra Power fabric that is characteristic of excellent elasticity and breathability.

MATERIAL: Lycra Power

- New anatomical cut.
- Flat seams.
- Legs finished with elastic fabric for maximal comfort.
- ZOOM X pad.

Skinsuit 3/4 ELITE-A 37| Lycra POWER | MEN

Code: N50538-MA37

PRICE (excl. VAT): €101.00

Modern skinsuit ELITE from high quality and compressive Lycra Power fabric that is characteristic of excellent elasticity and breathability.

MATERIAL: Lycra Power

- New anatomical cut.
- Flat seams.
- Legs finished with elastic fabric for maximal comfort.
- Small pocket at the back.
- ZOOM X pad.

Skinsuit ELITE-A 24| Lycra POWER | MEN

Code: N50528-MA24

PRICE (excl. VAT): €111.50

Modern skinsuit ELITE from high quality and compressive Lycra Power fabric that is characteristic of excellent elasticity and breathability.

MATERIAL: Lycra Power

- New anatomical cut.
- Flat seams.
- Legs finished with elastic fabric for maximal comfort.
- ENDURANCE Plus pad.

Skinsuit ELITE-A 38| Lycra POWER | MEN

Code: N50528-MA38

PRICE (excl. VAT): €103.00

Modern skinsuit ELITE from high quality and compressive Lycra Power fabric that is characteristic of excellent elasticity and breathability.

MATERIAL: Lycra Power

- New anatomical cut.
- Flat seams.
- Legs finished with elastic fabric for maximal comfort.
- ZOOM X pad.

Skinsuit ELITE-A 23| Lycra POWER | MEN

Code: N50528-MA23

PRICE (excl. VAT): €111.50

Modern skinsuit ELITE from high quality and compressive Lycra Power fabric that is characteristic of excellent elasticity and breathability.

MATERIAL: Lycra Power

- New anatomical cut.
- Flat seams.
- Legs finished with elastic fabric for maximal comfort.
- Small pocket at the back.
- ENDURANCE Plus pad.

Skinsuit ELITE-A 37| Lycra POWER | MEN

Code: N50528-MA37

PRICE (excl. VAT): €103.00

Modern skinsuit ELITE from high quality and compressive Lycra Power fabric that is characteristic of excellent elasticity and breathability.

MATERIAL: Lycra Power

- New anatomical cut.
- Flat seams.
- Legs finished with elastic fabric for maximal comfort.
- Small pocket at the back.
- ZOOM X pad.

Skinsuit ELITE-A 24| REVOLUTIONAL | MEN

Code: N50516-MA24

PRICE (excl. VAT): €107.00

Get all the advantages of an aerodynamic time trial skinsuit during a road race or MTB competition.

MATERIAL: Revolutionary

- anatomically structured cut
- legs finished with "fullgrip" elastic band that is stitched with reflective flatlock seam
- flat seams ensuring maximum comfort
- ENDURANCE Plus pad

Skinsuit ELITE-A 38| REVOLUTIONAL | MEN

Code: N50516-MA38

PRICE (excl. VAT): €98.50

Get all the advantages of an aerodynamic time trial skinsuit during a road race or MTB competition.

MATERIAL: Revolutionary

- anatomically structured cut
- legs finished with “fullgrip” elastic band that is stitched with reflective flatlock seam
- flat seems ensuring maximum comfort
- ZOOM X pad

Skinsuit ELITE-A 25| REVOLUTIONAL | MEN

Code: N50516-MA25

PRICE (excl. VAT): €119.50

Get all the advantages of an aerodynamic time trial skinsuit during a road race or MTB competition. This lightweight skin-suit with three-compartment pocket at the back and an opening for easier comfort breaks perfectly fits the definition of practical race wear.

MATERIAL: Revolutionary

- an opening between the upper and lower parts for easier comfort breaks
- anatomically structured cut
- legs finished with “fullgrip” elastic band that is stitched with reflective flatlock seam
- three-compartment pocket at the back
- flat seems ensuring maximum comfort
- ENDURANCE Plus pad

Skinsuit ELITE-A 39| REVOLUTIONAL | MEN

Code: N50516-MA39

PRICE (excl. VAT): €111.00

Get all the advantages of an aerodynamic time trial skinsuit during a road race or MTB competition. This lightweight skin-suit with three-compartment pocket at the back and an opening for easier comfort fits perfectly the definition of practical race wear.

MATERIAL: Revolutionary

- an opening between the upper and lower parts for easier comfort breaks
- anatomically structured cut
- legs finished with "fullgrip" elastic band that is stitched with reflective flatlock seam
- three-compartment pocket at the back
- flat seems ensuring maximum comfort
- ZOOM X pad

Skinsuit ELITE-A 23| REVOLUTIONAL | MEN

Code: N50516-MA23

PRICE (excl. VAT): €107.00

Get all the advantages of an aerodynamic time trial skinsuit during a road race or MTB competition.

MATERIAL: Revolutionary

- anatomically structured cut
- legs finished with "fullgrip" elastic band that is stitched with reflective flatlock seam
- one small back pocket
- flat seems ensuring maximum comfort
- ENDURANCE Plus pad

Skinsuit ELITE-A 37| REVOLUTIONAL | MEN

Code: N50516-MA37

PRICE (excl. VAT): €98.50

Get all the advantages of an aerodynamic time trial skinsuit during a road race or MTB competition.

MATERIAL: Revolutionary

- anatomically structured cut
- legs finished with “fullgrip” elastic band that is stitched with reflective flatlock seam
- one small back pocket
- flat seams ensuring maximum comfort
- ZOOM X pad

Skinsuit 3/4 ELITE-A 24| REVOLUTIONAL | MEN

Code: N50536-MA24

PRICE (excl. VAT): €109.50

Get all the advantages of an aerodynamic time trial skinsuit during a road race or MTB competition.

MATERIAL: Revolutionary

- anatomically structured cut
- legs finished with “fullgrip” elastic band that is stitched with reflective flatlock seam
- flat seams ensuring maximum comfort
- ENDURANCE Plus pad

Skinsuit 3/4 ELITE-A 38| REVOLUTIONAL | MEN

Code: N50536-MA38

PRICE (excl. VAT): €101.00

Get all the advantages of an aerodynamic time trial skinsuit during a road race or MTB competition.

MATERIAL: Revolutionary

- anatomically structured cut
- legs finished with “fullgrip” elastic band that is stitched with reflective flatlock seam
- flat seems ensuring maximum comfort
- ZOOM X pad

Skinsuit 3/4 ELITE-A 23| REVOLUTIONAL | MEN

Code: N50536-MA23

PRICE (excl. VAT): €109.50

Get all the advantages of an aerodynamic time trial skinsuit during a road race or MTB competition.

MATERIAL: Revolutionary

- anatomically structured cut
- legs finished with “fullgrip” elastic band that is stitched with reflective flatlock seam
- one small back pocket
- flat seems ensuring maximum comfort
- ENDURANCE Plus pad

Skinsuit 3/4 ELITE-A 37| REVOLUTIONAL | MEN

Code: N50536-MA37

PRICE (excl. VAT): €101.00

Get all the advantages of an aerodynamic time trial skinsuit during a road race or MTB competition.

MATERIAL: Revolutionary

- anatomically structured cut
- legs finished with “fullgrip” elastic band that is stitched with reflective flatlock seam
- one small back pocket

PRICE (excl. VAT): €111.50

MATERIAL: Revolutionary

Skinsuit ELITE-A 37| REVOLUTIONAL | MEN

Code: N50526-MA37

PRICE (excl. VAT): €103.00

MATERIAL: Revolutionary

Cycling skinsuit ELITE-A 54 | Roubaix

Code: N50525-MA54

PRICE (excl. VAT): €116.00

This skinsuit from elastic, thermally insulated fabric, Roubaix, protects you against the cold and ensures perfect fit and comfortable ride.

MATERIAL: Roubaix

- suitable for cyclo-cross and MTB
- thermally insulated fabric Roubaix
- legs finished with "fullgrip" elastic band that is stitched with reflective flatlock seam
- ENDURANCE Plus pad

Cycling skinsuit ELITE-A 58 | Roubaix

Code: N50525-MA58

PRICE (excl. VAT): €107.50

This skinsuit from elastic, thermally insulated fabric, Roubaix, protects you against the cold and ensures perfect fit and comfortable ride.

MATERIAL: Roubaix

- suitable for cyclo-cross and MTB
- thermally insulated fabric Roubaix
- legs finished with "fullgrip" elastic band that is stitched with reflective flatlock seam
- ZOOM X pad

Cycling skinsuit ELITE-A 56 | Revolutionary

Code: N50526-MA56

PRICE (excl. VAT): €111.50

Get all the advantages of an aerodynamic time trial skinsuit during a road race or MTB competition. This lightweight skin-suit with three-compartment pocket at the back and an opening for easier comfort breaks perfectly fits the definition of practical race wear.

MATERIAL: Revolutionary

Cycling jersey ACTIVE 04 | Devan

Code: N50016-MS04

PRICE (excl. VAT): €31.50

This elastic jersey is made from functional material in our standard close-fitting cut.

MATERIAL: Devan

- pleasant functional Devan material
- three-compartment back pocket
- long zipper makes getting dressed easier

Cycling jersey ACTIVE 04 | Perun Plus

Code: N50014-MS04

PRICE (excl. VAT): €31.50

This elastic jersey is made from functional material in our standard close-fitting cut.

MATERIAL: Perun Plus

- pleasant functional material Perun PLUS
- three-compartment back pocket
- long zipper for getting dressed easier

Cycling jersey ACTIVE 07 | Devan

Code: N50016-MS07

PRICE (excl. VAT): €28.50

This elastic jersey is made from functional material in our standard close-fitting cut.

MATERIAL: Devan

- pleasant functional material Devan
- three-compartment back pocket
- 16cm long zipper

Cycling jersey ACTIVE 07 | Perun Plus

Code: N50014-MS07

PRICE (excl. VAT): €28.50

This elastic jersey is made from functional material in our standard close-fitting cut.

MATERIAL: Perun Plus

- pleasant functional material Perun PLUS
- three-compartment back pocket
- 16cm long zipper

Cycling jersey ACTIVE 04 | Devan

Code: N50016-ML04

PRICE (excl. VAT): €34.50

This elastic jersey is made from functional material in our standard close-fitting cut.

MATERIAL: Devan

- pleasant functional Devan material
- three-compartment back pocket
- long zipper

Cycling jersey ACTIVE 04 | Perun Plus

Code: N50014-ML04

PRICE (excl. VAT): €34.50

This elastic jersey is made from functional material in our standard close-fitting cut.

MATERIAL: Perun Plus

- pleasant functional material Perun PLUS
- three-compartment back pocket
- long zipper for getting dressed easier

Cycling jersey ACTIVE 30 | Flanders

Code: N50055-ML30

PRICE (excl. VAT): €41.50

A long sleeve jersey made from a pleasant and insulated material created for unpredictable spring and autumn weather conditions.

MATERIAL: Flanders

- innovative insulated material Flanders
- three-compartment back pocket with an ipod aperture

Cycling gilet ACTIVE 02 | MicroFiber/Net

Code: N50113-UN02

PRICE (excl. VAT): €28.50

This lightweight vest with mesh back panel will protect you against getting cold.

MATERIAL: Microfiber

- lightweight MicroFiber material
- rear mesh panel for better ventilation

Cycling jacket ACTIVE 91 | MicroFiber

Code: N50213-UL91

PRICE (excl. VAT): €36.50

A light windbreaker will protect you from getting cold

MATERIAL: Microfiber

- lightweight material from microfibres
- no back pockets

Cycling bib-shorts ARCO-ACTIVE 12 | Lycra

Code: N60067-MA12

PRICE (excl. VAT): €37.50

The cycling bib-shorts ACTIVE are constructed from functional Lycra fabric that provides light compression and freedom of movement.

MATERIAL: Lycra

- Stretchy Lycra fabric.
- Mesh braces for better ventilation.
- SPEED Man pad.

Cycling shorts ARCO-ACTIVE 12 | Lycra

Code: N60011-MA12

PRICE (excl. VAT): €33.00

The cycling shorts ACTIVE are constructed from functional Lycra fabric that provides light compression and freedom of movement.

PRICE (excl. VAT): €34.50

MATERIAL: Devan

Cycling jersey PODIUM 34 | Perun Plus

Code: N50014-ML34

PRICE (excl. VAT): €34.50

MATERIAL: Perun Plus

MATERIALS AND PADS

Razor

Ultra-thin, quick-drying material, especially developed for racing purposes. This fabric offers excellent stretch and recovery, while providing great comfort. It is highly breathable and provides an aerodynamic fit.

Carbon X7

A lightweight, polyester knitted fabric containing a carbon fibre mixture that helps to quickly carry sweat away from your skin and give the benefit of enhanced breathability. The open weave material is very pleasant to touch and provides great freedom of movement.

Verano Ultra

A technical and soft mesh fabric that provides excellent breathable and moist wicking characteristics. Thanks to its light weight you will have a feeling that you are not wearing a high performance cycling kit.

W&W Shark

A woven fabric that is widely used in high performance clothing to provide perfect waterproof parameters yet being very breathable. The membrane being sandwiched between two layers, outer layer with durable water repellent treatment and inner brushed lining for comfortable feeling.

Elastico Thermo

New, thermally insulated material with high elasticity is ideal to use in production of long-sleeve cycling jerseys, where excellent flexibility ensures maximum comfort when riding.

W&W Hexagon

An ultralight membrane gives an effective protection against the rain thanks to high values of waterproofness (> 8 000 mm) and a superior level of breathability (> 37 700 g/m/24h) will make sure that you do not overheat while riding your bike.

W&W Diamond

Thermally insulated fabric W&W Diamond with a membrane. Comfortable to low temperatures and chilly weather. The fabric provides thermal comfort and high elasticity which ensures maximum freedom when riding.

Goffrato

Innovative Italian fabrics Goffrato provides high elasticity and maximal muscle compression. These attributes guarantee free movement when racing or training.

Roubaix

Revolutionary stretchy material containing LYCRA fibers developed for high quality sportswear with UV protection, while keeping your body dry and warm. This fabric has a special antibacterial treatment.

Cyclo-One

Extremely lightweight and ultra-thin revolutionary material combines a structured "golf ball dimples" textile. Highly breathable, while providing perfect aerodynamic cut. Great stretch and recovery power designed to help any cyclist to move and perform at their best, while feeling comfortable.

RainMem X3

Thermally insulated fabric RainMem X3 with a membrane.

Spinn

Weft-knitted polyester material developed for highly functional cycle wear. Two-layer structure made from lightweight fabrics with the reverse side from special microfiber that effectively transfers the sweat to the top layer. The Spinn material is very breathable and provides a comfortable fit.

Flanders

Very pleasant material used for long-sleeve insulated jerseys with the reverse side that is brushed.

W&W Mission Light

Very lightweight three-layer functional membrane fabric that is wind and water-proof. The top layer of the fabric is very compact and abrasion resistant.

W&W Winter Plus

Thermally insulated fabric W&W Winter Plus with a membrane comfortable to chilly weather. The fabric provides thermal comfort and high elasticity which ensures maximum freedom when riding.

Lycra Power

The Lycra Power fabrics offer even better stretch and recovery power designed to help any cyclist to move and perform at their best, while feeling comfortable. This textile material is a perfect combination of light-weight, breathability, close-fit, shape retention and freedom of movement. In addition, it provides muscle support during bumps and thus prevents early exhaustion.

W&W Tecno

Three-layer fabric with great insulation ability. Upper layer consists of polyamide knitted fabric that is laminated to the wind and waterproof membrane. Third layer is an insulating double fleece on the inner side. Thanks to its excellent stretch it can be easily combined with other fabrics. Specifications: Water column: 8.000 mm
Breathability: 15.000g/sq.m/24 hours

Revolutional

This new revolutionary stretch fabric is made from polyamide micro fibre and Lycra XtraLIFE. This textile material is a perfect combination of light-weight, breathability, close-fit, shape retention and freedom of movement. In addition, it provides great muscle compression and a flattering look without sacrificing anything in comfort.

Brios

Ultra-thin, quick-drying material, especially developed for racing purposes. This fabric offers excellent stretch and recovery, while providing a great comfort. The Brios material is highly breathable and provides an aerodynamic fit.

Devan

Weft-knitted polyester material with two-layer structure made from lightweight fabrics developed for functional cycle-wear.

Perun Plus

Fine, polyester knit with woven shiny fibers, which gives fabrics an impressive appearance. Suitable for lighter sports jerseys. Excellent breathable parameters.

Microfiber

This material is very breathable and at the same time provides reliable protection against wind and rain. Fashionable apparels in microfibres have graceful flow, silk-like feel and are extremely comfortable. Microfiber clothing is not sensitive, retaining its positive qualities after washing or cleaning.

Lycra

The Lycra fabrics offer stretch and recovery power designed to help any cyclist to move and perform at their best, while feeling comfortable. This textile material is a perfect combination of light-weight, breathability, close-fit, shape retention and freedom of movement.

Athena DH

Fabric used mainly on caps and accessories. Good sweat ventilation.

ENDURANCE Carbonium

Revolutionary elastic pad of the ELASTIC INTERFACE TECHNOLOGY® series developed to satisfy all cyclists needs! It provides maximum protection and incredible comfort during long and demanding rides.

Important features:

- unique anatomic shape developed after long test protocols from elite professional road riders
- especially shaped with ultra high density foam inserts for best support in the riding position
- carbon material - E.I.T Carbonium - a combination of microfibre and carbon fibre for maximum thermoregulation
- bacteriostatic material
- perforated foam providing increased ventilation and quick dry
- specially designed perineal area to preserve natural blood circulation and to protect the sciatic nerve.

ZOOM X

Multilevel elastic pad of the ELASTIC INTERFACE TECHNOLOGY® series made in an attractive design and developed to provide a great degree of protection and comfort.

Important features:

- newly developed elastic material from microfiber and polyester fibres for maximum breathability
- dual density construction guarantees a great degree of protection and comfort
- bacteriostatic material
- extremely soft side wings providing freedom of movement and excellent fit
- perforated foam ensuring increased ventilation and quick dry
- specially designed perineal area to preserve blood circulation and to protect the sciatic nerve

SPEED MAN

Men's elastic pad of the ELASTIC INTERFACE TECHNOLOGY® series in three dimensional design. It guarantees a good level of protection and comfort.

Important features:

- anatomic three dimensional shape
- dual density construction guarantees good degree of protection and comfort
- newly developed elastic material - E.I.T. CUBE - incredibly soft with microfiber and polyester fibres for maximum breathability
- specially designed perineal area to preserve natural blood circulation and to protect the sciatic nerve
